# Innovation Grants

## You can get an innovation grant up to \$1500!

This year at Transforming Ministry Conference III participants will have the opportunity to receive grants for up to \$1500 to help prototype an innovative activity, program, event or network during the coming year.

Grants will be directed to innovative ideas aimed at making disciples of Jesus Christ and/or transforming the world. Coaching will be provided along with the grants to support innovators.

**Three grants will be awarded at the end of the conference:**

1. **Innovation Award:** for the most out-of-the-box idea proposed.
2. **Effective Award:** for the innovative idea deemed most likely to work.
3. **People's Choice Award:** to be selected by vote of the participants at the 2014 TM3 conference.

**Some conference developers will be offering additional grants for worthy proposals within their conferences.**

There will be time at the conference to find partners, develop your ideas, and get consulting.

**Get started innovating with these questions before you come ...**

- What transformation are you passionate about bringing to your mission field?
- Who do you need to engage with in your mission field in order to see this transformation?
- What sort of activity/program/event/network do you imagine might engage this group of people in bringing this transformation?
- What resources do you need to develop in order to implement a pilot of this activity/program/event/network?
