***Second in a series:***

Join us for an interactive workshop with long time anti-racist organizer and author, Chris Crass to explore how we can work together for racial justice and build Beloved Community in Kitsap County! In a time of mass incarceration, mass deportation, anti-Muslim sentiment, anti-immigrant feeling and profound economic inequality, people of all backgrounds are looking for ways to work together for justice. Chris's workshops have addressed anti-racism for spiritual leaders, feminism and men, and creating healthy culture for progressive activism. He uses storytelling, movement history and group participation to create a dynamic learning environment. Everyone is welcome!
