

## PROJECT TRANSFORMATION

### SUMMER INTERN

Project Transformation provides leadership development and/or ministry exploration experiences for college-age young adults. In turn, these young adults implement academic, social-emotional, and spiritual programming for underserved children. Programs are operated in churches located in lower-income communities to help build relationships with their neighbors. Our program model, focusing on these three "C"s: Children, College students, and Churches; addresses three unique challenges in one collaborative program. The transformation that happens through relationships across the three Cs is integrated, interdisciplinary, multi-directional, and mutually enriching.

### RESPONSIBILITIES

- + Implement curriculum that addresses literacy and social-emotional skills.
- + Participate in and contribute to communal living with other interns.
- + Develop positive relationships with children in order to transform lives!

### DESIRED QUALITIES

- + Able to thrive in adapting environments.
- + Able to develop relationships with a diverse group of people.
- + Someone seeking opportunities to practice servant leadership.
